One of our main problems is communications to the outside. We have no phones, no Internet service and our radio system was damaged by the storm. We cannot place calls we can only receive them. We are asking for your patience as we are trying to answer all of your questions.

Jefferson Parish is in a lock down mode. There is no water, no electricity, no sewerage services. There are downed trees and power lines that uprooted our entire infrastructure. We have to basically rebuild.

We are working on getting the water pumped out of Jefferson Parish. Once the water is down, we will begin to clear major thoroughfares to enable our parish public work crews to move about the parish, assess and repair the damage.

We are asking for your cooperation. We are working through the devastation to get our parish stabilized so we can get our citizens back to their homes.

We are announcing information via WWL-Radio 870AM and we have Internet service set up outside of the parish www.jeffparish.net where there is a link to WWL-TV and the State Police.
