Advisory 41-A

## Flood Areas of Jefferson Parish

Today, the only flooded area is approximately bounded by Causeway Boulevard (west), Orleans Parish line (east), Jefferson Highway (south) and Metairie Road (north). This area is drained by the New Orleans Sewerage and Water Board Pump Station #6 which is currently inoperative. Jefferson Parish will begin pumping the water out using multiple portable pumps; however, at this time it is difficult to predict exactly how long it will take to drain the area.
