Jefferson Parish Water Department Adds New Services

The Jefferson Parish Water Department is adding new services to allow for greater convenience for Jefferson Parish water customers.

Effective immediately, existing customers in good standing can now transfer water service without having to adjust deposits. Now, they may do so by telephone, eliminating the need to come to one of our offices, in-person, to transfer service from one location to another.

Also, effective Monday, April 18, 2011, existing customers in good standing can be billed for the deposit required to add additional accounts.

“This is another example of how we are putting our citizens first. We are working every day to help residents and businesses in Jefferson Parish achieve a better quality of life. These user-friendly changes for our water customers will make it easier and more convenient for them to take care of their water bill account,” said John Young, Jefferson Parish President.

New customers still will be required to come into one of our service centers to pay the deposit and fees up-front for initial account activation.
