Jefferson Parish Government Natural Hazard Preparedness Survey

Jefferson

Parish wishes to coordinate planning efforts of various departments including Emergency Management, Hazard Mitigation, Public Works, Community Development as well as non-profit entities. Your input regarding natural hazard concerns and individual preparedness is needed to ensure our planning efforts address residents' concerns. If you live outside of Jefferson Parish, we welcome your input for this survey as it provides a regional viewpoint regarding risk and preparedness.

National Disaster Resilience Competition (NDRC)

Jefferson Parish is participating in the National Disaster Resilience Competition (NDRC) managed by the U.S. Department of Housing and Urban Development. Since significant damaged was sustained by Jefferson Parish during Hurricane Isaac, the Parish is eligible to compete for up to \$500 million of the one \$1 billion in federal funding being made available as a result of presidentially-declared disasters that took place in 2011, 2012 and 2013. There are a total of 67 eligible applicants, including states, counties and cities.

The NDRC process is separated into two phases. The Phase I application is due March 16, 2015 and allows applicants to demonstrate their unmet needs in the categories of housing, infrastructure, economic development and environmental degradation. Applicants that score well in Phase I will be asked to submit an application for Phase 2, which is due in September 2015. The Phase 2 submittal will consist of specific projects and programs that will increase the resiliency of each applicant's community.

Jefferson Parish encourages you to provide us with your input for this grant application. Click here to view the [draft application](#) (0.9 MB). You may submit all comments and questions online via this [FORM](#).

To submit comments in writing, please address them to:
